" It is over two years now that Express A/c has been servicing our air conditioning and heating system. We appreciate your prompt and accurate service. You have worked with us in the past to revive our system as much as possible even though other companies said it was too old and could not be repaired. You understood our lack of cash flow, and our need to make the existing system work. Finally, when the cash flow was available, you gave us the best quote and replaced it within the time frame that was promised. This enabled us to continue our daily prayer services without interruptions. We thank and appreciate you and will continue to use your services. "
